Housing

Housing is open!

Why Stay at an Official AJA Hotel?

Great Rates. AJA has negotiated special housing rates—typically well below the standard rates available to the public—for attendees and exhibitors at the following hotels. Booking a reservation in the AJA block allows AJA to secure the meeting space necessary for the conference at a reduced price to the association. If AJA falls below our guaranteed room nights at the official hotels, we could incur a financial penalty. By staying in the AJA block, you help us to meet the association’s obligation to the hotel, avoid penalties, and keep event costs (and therefore registration costs) down.

Easy Access to AJA Conference Events. Staying in the AJA room block keeps you connected with informal activities and other opportunities that occur at the host hotel during the event.

Experience the graciousness of true Texas hospitality at Omni Fort Worth Hotel with western-inspired guest rooms welcoming you into a genuine Texas experience. Enjoy six tempting dining destinations, including a steakhouse, wine bar, and sports bar serving a variety of food and cocktails. Take a dip in the heated pool on the sun deck or book a relaxing treatment at Mokara Spa located within our downtown Fort Worth hotel.

Conveniently located in the heart of downtown, the Omni is steps from the Fort Worth Convention Center and within walking distance of popular things to do in the city. You can also find historic sites, restaurants, and nightlife in Cowtown with ease via the complimentary trolley service just outside the hotel. Just a short drive away you'll discover the Fort Worth Stockyards and AT&T Stadium, home to the Dallas Cowboys.

Background:

In February 2019 the Imperial County Community Corrections Partnership (CCP) approved the funding of one Criminal Research Specialist (CRS) for the District Attorney's Office. This is a 2-week, (80-hour) comprehensive introduction to law enforcement intelligence analysis, with an intensive program consisting of both classroom and hands-on training. The course curriculum emphasizes the development of the student's analytical skills, the use of computerized tools and systems, and covers a broad range of academic subjects critical to providing mission-oriented intelligence. The class is scheduled for March 24, 2025, to April 4, 2025.
